Description: He is an 6 year old Friesian gelding who has a wonderful temperament and loads of curb appeal. He is 16.1 hands tall, has wonderful feet and a copious amount of hair. He is up to date on inoculations, dentistry, and farrier. He has no health or behavior issues, and is very clean in his stall. He commenced his training in dressage and has three strong gaits. He also has a very powerful stride, so not recommended for a beginning rider. He is, however, very loving, and is a joy to work with - he can "smile" on command. Can't say enough nice things about this horse - he is only for sale. For more details and pictures on how they are doing contact us back as soon as possible via call or text: +1 {804}410-4481
